

## **I Still Miss Someone**

Recorded by Johnny Cash

written by Johnny Cash and Ray Cash Jr.

C                      F                      G7  
At my door the leaves are falling

F                      G7                      C  
The cold wild wind will come

                                 F              G7  
Sweethearts walk by together

F                      G7                      C  
And I still miss someone

                                 F              G7  
I go out on a party

F                      G7                      C  
And look for a little fun

                                 F                      G7  
But I find a darkened corner

F                      G7                      C  
Because I still miss someone

**F                      G7                      C**  
**I never got over those blues eyes**

**F                      G7                      C**  
**I see them everywhere**

**F                      G7                      C**  
**I miss those arms that held me**

**F                      G7                      C**  
**When all the love was there**

F                      G7  
I wonder if she's sorry

F                      G7                      C  
For leaving what we'd begun

                                 F                      G7  
There's someone for me somewhere

F                      G7                      C  
And I still miss someone

Repeat Verse 3 (Bridge)

Repeat Verse 4 (Ending)
