

Mark Knopfler - I Used To Could

Well, all down the 40 I never used to lift
Thirteen gears, double clutch shift
All those horses underneath the hood
I don't do it no more but I used to could

GMC Cannonball going like a train
All down the 40 in the driving rain
All those horses underneath the hood
I don't do it no more but I used to could

Well I don't hang around 'cause it ain't no good
Like the big bad wolf in the neighborhood
Chasin' after Little Red Riding Hood
I don't do it no more but I used to could
