# Hickory Wind

c/G            G            F            C/G  
 In South Carolina, there are many tall pines  
                                  G            F            G  
 I remember the oak tree, we used to climb  
                                  F            G            C/G  
 But it makes me feel better each time it begins  
                                  F            G            C/G  
 Calling me home Hickory wind

C/G            G            F            C/G  
 I started out younger at most everything  
                                  G            F            G  
 All the riches and pleasures, what else could life bring  
                                  F            G            C/G  
 But now when I'm lonesome, I always pretend  
                                  F            G            C/G  
 That I'm getting the feel of Hickory wind

C/G            G            F            C/G  
 It's a hard way to find out that trouble is real  
                                  G            F            G  
 In a faraway city with a faraway feel  
                                  F            G            C/G  
 But it makes me feel better each time it begins  
                                  F            G            C/G  
 Calling me home Hickory wind

C/G            F            G            C/G  
 But it makes me feel better each time it begins  
                                  F            G            G  
 Calling me home Hickory wind  
                                  F            G            C/G  
 Keeps calling me home Hickory wind
